

Corporate Profile

We operate as if each customer is our only customer. Our customers' success is our own success. If you are looking to achieve your goals and objectives by leveraging honest and trustworthy partners, then you have come to the right place. We tell you what you need to hear, which is not always what you want to hear.

BTB Security was founded in 2006 with some fundamental goals in mind:

- Build a customer base and name within the professional services industry by telling the truth and practicing with integrity.
- Deliver high-quality and high-value projects for every service we offer.
- Become a trusted advisor with every customer, no matter how big or small.
- Conduct business in a manner that focuses on ethics, decency, and service.

Background & Expertise

BTB Security was founded by passionate individuals whose backgrounds include years of experience with Big Four and similarly sized consulting organizations, as well as extensive experience building, managing, and operating corporate information security organizations. We attract talented professionals with the mindset and experience in delivering the services we provide today. We bring a truly unique perspective and delivering value when helping our clients with their information security needs.

While assisting our customers in solving complex security challenges, our professionals continue to learn and grown in the ever-changing security field. BTB Security encourages the development of our professionals through annual training programs and certifications, as well as speaking engagements in IT and business.

The BTB Difference

In addition to delivering high-value services to our customer, BTB Security goes Beyond The Basics by bringing integrity, passion, and price performance to each engagement. We earn our clients' trust by exceeding their expectations and aligning our expertise to achieve their goals. As an industry trusted advisor, BTB Security also provides thought leadership and forward thinking to the information security field. BTB Security developed techniques and tools are benefiting our customers, our competitors, and the industry as a whole. We take pride in our delivery, our training and our contributions to the security community.
