

Contact Information for The Maryland State Department of Assessments and Taxation ("Maryland SDAT")

In order to legally conduct business within the State of Maryland, all vendor applicants, including in-state (Maryland) businesses and out-of-state (Foreign) businesses, are required to verify that they have registered with the Maryland SDAT.

Staff at Maryland SDAT will determine whether the vendor applicant is required to file for a Trade Name Registration, or file for "Good Standing" status.

Maryland SDAT offers information and assistance at
