

PROPOSED OUTDOOR GAMING AREA

06/08/15

Attached is the required documentation for a game increase/creation of an outdoor gaming area for Rocky Gap Casino Resort. The requested increase of 54 machines will bring us to a total of 631 gaming machines. Upon approval, we would like to have the increase effective 07/01/15. We've attached copies of the proposed outdoor gaming floor plan, copies of the signed Affidavits attesting to the fact that the outdoor gaming area and its intended use meet all applicable local and state requirements and game move.

Amenities proposal:

Rocky Gap Casino Resort intends to offer beverage service in the outdoor gaming area.

Safety plan during inclement weather:

The area will be conditioned. The gaming area will be enclosed on three sides with a roof that has a three foot overhang on the fourth side. Additionally there will be a 3 foot setback between the gaming machines and the open side. We will also have a pressurized HVAC system installed in the outdoor gaming area, which will force smoke out of the gaming area and keep inclement weather from entering the gaming area.
